# MOISD Presents Middle School Algeblocks Training

Presented by Kevin Dykema, Mattawan Schools

Middle School Math Teachers

High School Algebra Teachers and

Middle and High School Special Education Algebra Teachers

You will learn how to use Algeblocks to help your students develop a conceptual understanding of algebraic concepts. Topics covered will include; operations with integers, working with variable expressions, multiplying and factoring polynomials, and solving equations. The presenter will also share useful tips to help students reach these concepts.

**Register**  
**by 12.01.08**
