Aflac Group Critical Illness

**INSURANCE – PLAN INCLUDES BENEFITS
FOR CANCER AND HEALTH SCREENING**

We help take care of your
expenses while you take
care of yourself.

Aflac can help ease the financial stress of surviving a critical illness.

Chances are you may know someone who's been diagnosed with a critical illness. You can't help notice the difference in the person's life—both physically and emotionally. What's not so obvious is the impact a critical illness may have on someone's personal finances.

That's because while a major medical plan may pay for a good portion of the costs associated with a critical illness, there are a lot of expenses that may not be covered. And, during recovery, having to worry about out-of-pocket expenses is the last thing anyone needs.

That's the benefit of an Aflac Group Critical Illness plan.

It can help with the treatment costs of covered critical illnesses, such as a heart attack or stroke.

More importantly, the plan helps you focus on recuperation instead of the distraction of out-of-pocket costs. With the Critical Illness plan, you receive cash benefits directly (unless otherwise assigned)—giving you the flexibility to help pay bills related to treatment or to help with everyday living expenses.

What you need, when you need it.

Group critical illness insurance pays cash benefits that you can use any way you see fit.

Here's why the Aflac Group Critical Illness plan may be right for you.

For more than 60 years, Aflac has been dedicated to helping provide individuals and families peace of mind and financial security when they've needed it most. The Aflac Group Critical Illness plan is just another innovative way to help make sure you're well protected.

But it doesn't stop there. Having group critical illness insurance from Aflac means that you may have added financial resources to help with medical costs or ongoing living expenses.

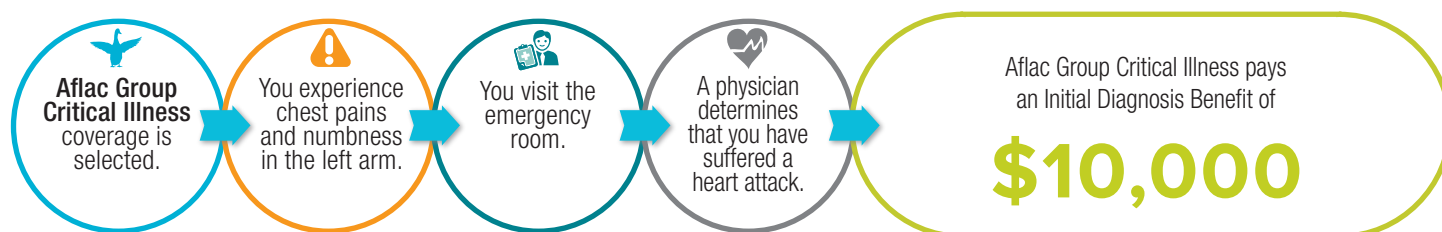

The Aflac Group Critical Illness plan benefits include:

- Critical Illness Benefit payable for:
 - Cancer
 - Heart Attack (Myocardial Infarction)

 - Kidney Failure (End-Stage Renal Failure)

Dependent children are your or your spouse's natural children, step-children, foster children, children subject to legal guardianship, legally adopted children, or children placed for adoption, who are younger than age 26 (In Arizona, on the effective date of coverage). Newborn children are automatically covered from the moment of birth. Refer to your certificate for details.

- Son
- Daughter
- Mother
- Father
- Sister
- Brother

This includes step-family members and family-members-in-law.

Employee is a person who meets eligibility requirements and who is covered under the plan. The employee is the primary insured under the plan.

Diagnosis of a Heart Attack (Myocardial Infarction) must include the following:

- New and serial electrocardiographic (ECG) findings consistent with heart attack (myocardial infarction), and
- Elevation of cardiac enzymes above generally accepted laboratory levels of normal. (In the case of creatine phosphokinase (CPK) a CPK-MB measurement must be used.)

Confirmatory imaging studies, such as thallium scans, MUGA scans, or stress echocardiograms may also be used.

Kidney Failure (End-Stage Renal Failure) is covered only under the following conditions:

- A doctor advises that regular renal dialysis, hemo-dialysis, or peritoneal dialysis (at least weekly) is necessary to treat the kidney failure (end-stage renal failure); or
- The kidney failure (end-stage renal failure) results in kidney transplantation.

Maintenance Drug Therapy is meant to decrease the risk of cancer recurrence; it is not meant to treat a cancer that is still present.

A Major Organ Transplant benefit is not payable if the major organ transplant results from a covered critical illness for which a benefit has been paid.

Stroke does not include:

- Transient Ischemic Attacks (TIAs)
- Head injury
- Chronic cerebrovascular insufficiency
- Reversible ischemic neurological deficits unless brain tissue damage is confirmed by neurological imaging

Sudden Cardiac Arrest is not a heart attack (myocardial infarction). A sudden cardiac arrest benefit is not payable if the sudden cardiac arrest is

caused by or contributed to by a heart attack (myocardial infarction).

Treatment does not include maintenance drug therapy or routine follow-up visits to verify whether cancer or carcinoma in situ has returned.

Your coverage may be continued with certain stipulations. See certificate for details.

TERMINATION OF COVERAGE

You May Continue Your Coverage

Your coverage may be continued with certain stipulations. See certificate for details.
